

Designing Your Yearbook is as Easy As 1,2,3...

- 1 Upload Student images**
(Software automatically builds the class pages for you)
- 2 Build Your Activity Pages**
(Upload candid, create text, all with the click of a button)
- 3 Submit for Publishing**
(View the entire book anytime you want)
You're in control of the entire design process!

Yearbooks Do Matter

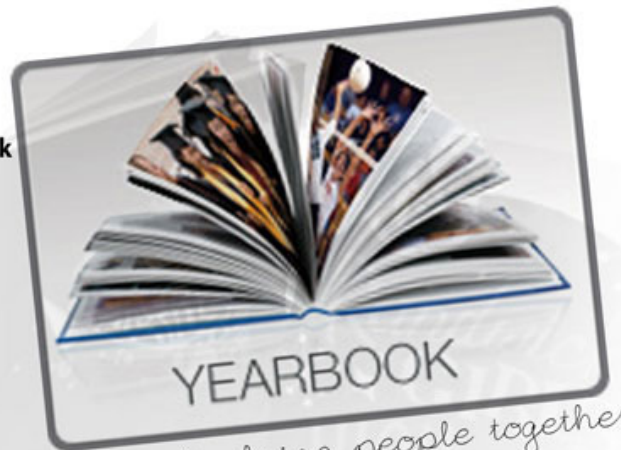

especially to parents. Who is that boy who has invited my son over? Who will my child teacher be next year? What does my child do during the day?

The yearbook serves as a parent guide, a reference book, and, most importantly, the only composite of this year's school memories. Consider using this window into your child's world, and allow THOP to guide you through the process.

Easy to use, saves time & it's fun...!

With our Software you are able to:

- View two opposing pages together
- Upload, size and crop candid images and clipart*
- Create your own albums to sort and store candid images and artwork
- Just drag and drop to:
 - Place images, artwork on pages
 - Merge classes
 - Move students from class to class
 - Move pages anywhere within book
 - Sort, move image to and from candid albums
- Choose your style and look from a large collection of pre-designed templates
- Edit student, teacher and staff information instantly
- Print unlimited proof pages on-demand
- Allows multiple users from multiple locations

Yearbooks bring people together
